The Rules of the Tournament state that, in the Final Tie only, both teams may name five substitute players, all of whom may play in the match. Under the rules of The Football Association, the system of repeated substitutions operates. A player who has been substituted during a match then becomes a substitute and may, in turn, replace another player.

This match will consist of 30 minutes each way. In the event of a draw, extra-time of 7 minutes each way will be played. If the scores are still level at the end of extra-time, the match will be decided by the taking of penalties.
